Description:

The Marcy Dual Roll Crusher is an excellent choice for secondary crushing of samples or a mineral stream. The unit is capable of crushing material from 1/2 down to -20 mesh in a single pass.

Features:

Fabricated steel, high-capacity tilt design feed hopper with electrical safety interlock.

Heavy duty pillow block bearings.

Crusher and motor mounted on heavy steel base.

Fabricated steel drive guard.

Roll adjustment made quickly with hand lever.

Cast Ni-Hard roll facings.

Strong relief springs protect rolls.
