Description:

Sepor is pleased to announce the expansion of our Mixing equipment product line. Sepor's Heavy duty mixing wheel is built for the biggest sample jobs you might have. The mixing wheel is used for the proper preparation of heterogeneous samples that require careful and thorough mixing. The unit is floor mounted and constructed of heavy gauge fabricated steel for the wheel with a frame of structural steel. The unit is capable of mixing 14 or 28 1/2 gallon bottles (2L) at one time, depending on the requirement. The wheel has 14 sample cylinders mounted at a 45 degree angle. The wheel includes a Variable Speed Controller for an RPM range of 1 to 14. Unit comes 110 or 220V, Single or 3 phase and 50/60 Hz options.

Catalog Number	Description
080M-001	14 Containers Only Model
080M-002	14 to 28 Containers Model
